April 2021

Dear Friends in the Gospel,

We pray that this letter finds you well and faithful in our Lord Jesus. We are all doing good and are still praying that the borders will open soon to Thailand and Mongolia. We are hearing that many foreign missionaries are returning home to their countries of service, but ours are not open to us yet. Baljmaa's mother, Ouymaa, is extremely ill with liver cancer in UlaanBaatar and my wife was able to travel back to Mongolia with permission of the Mongolian government. She had to book a flight with the Mongolian embassy in D.C. and prove her return was due to an emergency. She will stay and be with her Mom, and we hope to meet back with her when the borders open. Baljmaa is in lock down quarantine in a room with guards for 10 days after she arrived on March the 29th. Please pray for her and her family in Mongolia during this difficult time. My children and I will continue to meet with our ministry partners in the States while we wait. We have been meeting with churches and updating them on the work over the last couple of months. Please pray for us as we travel in the coming weeks. We miss Baljmaa while we are apart, but she has a lot to do in the ministry as she looks after her mother. She will be busy.

When we started our pro-life centers, they were opened and operated with a family counseling permit. The government discovered that we are operating ultrasound machines in the centers and now require that we change our permit from a counseling center to a medical center. Baljmaa will be handling this permit change also while she is there. That may seem easy to us in the States but in an old Soviet Union country it is exceedingly difficult due to the old laws and attitudes that still are predominate in the culture. She will need prayer and the Lords help for this task.

We communicate daily with all our Pastors and ministry leaders by Skype and Zoom. We were told that the churches were able to open with 10 people at a time in one room and it seemed very promising with the videos and photos they shared. But now we are being told they are going to lock down the entire country again for 2 weeks due to another wave of COVID. Will it ever end? We pray that God will end this madness soon so we can get back to work.

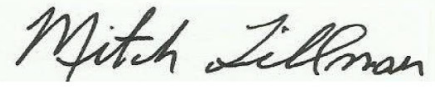

Even with all the craziness that is going on in the world, God is still at work. Last month the Mongolia government loosened the restrictions for the entire month, and we saw many saved in our prolife centers and feeding centers. All our ministries were up and running and the Gospel was being preached. Bibles and tracts were being passed out in our Gobi hospital and rescue missions and lost souls were hearing the Gospel. In this report we will tell you that the month of March was a productive month for the Gospel.

In Thailand we were able to bring in another leper that needed a home. That makes 12 that we can help and give a home. All our workers in our Thai church and leper home went to the local hospital with our Pastor and gave gift bags and Gospel tracts to the patients and their families. All the reports that we received back said that they had a great day sharing the Gospel and that many received the Lord. We are grateful to God that he has given us coworkers in Thailand and Mongolia that love the Lord and want to share the Good News with people that they meet.

We want to thank all of you who continue to support this ministry with your prayer and finances. You are the ones that fuel this work that God has called us to do. We are incredibly grateful. Because of your faithfulness, souls are hearing the Gospel, and some are being saved in Mongolia and Thailand.

Prayer Request: The health of Baljmaa's mom, Oyumaa.
The permit work that Baljmaa is doing in the pro-life centers.
The borders to open.
Souls to be saved.

Sincerely in Christ

Mitch and Baljmaa Tillman
