*Reaching the people of Mongolia and Thailand with the Gospel*

Church Planting, Discipleship, Orphanage, Leper home, Gobi Hospital, Pro Life Centers, Feeding Centers  
Rescue Missions, Children's Churches, Bible Handouts, and English Lessons.

July 2021

Dear Partners and Friends,

Last month was a fun filled 30 days for our family. We traveled and met each Sunday with partner churches to update the ministry. It was a joy to meet and make friends with our co laborers in God's work. We are still available to schedule a meeting if you have an opening. Feel free to contact us at the above numbers. We will make time to visit and then return to Mongolia when the meetings are completed and the borders open. We strongly believe that we should meet and personally know our partners that serve alongside us.

God has allowed us to organize the ministry in Mongolia and Thailand that operates very smoothly while we are here on furlough in the States. One of our favorite works is the Hope Center which is located next to the city landfill. God led us to plant and organize this feeding center about 15 years ago. We started out each week going inside the landfill and preaching to the people that lived inside this place. It was and still is a terrible place to live and it was heart breaking to see families and children live in this condition. They were without hope and Christ. The ones we met had never heard the name of Christ. Week after week we would preach inside the dump and give food and Bibles to the ones that would come and listen to our Gospel message.

After a while God led us to set up a permanent place for feeding the children and teaching them about Jesus and make a long-term commitment. We feed fifty children each day and have daily Bible study with them as well. We have seen many receive Christ and grow up and become good productive citizens. More importantly we have seen many grow up and marry and start Christian families. That is our goal. For them to be saved and bring glory to God.

We now have a church at this location with a pastor who is also the director of the Hope Center. It is not a big church, but it is a church that glorifies God and makes Jesus's name known in this area. Because of you and your partnership with us this is possible. With your help we will continue to tell the people that live and eat in this landfill about Jesus. That He can lift them up out of this terrible condition and sit them in heavenly places.

We pray that God will send you our way to serve with us. If God is calling you to Mongolia or Thailand, please contact us and we will help. Thank you for your prayer and support which makes this possible.

In Christ's Love

*James 2:5 Therefore, my beloved brethren, wait not God choose the poor of this world rich in faith, and heirs of the kingdom which he hath promised to them that love him?*

.On the left is Pastor Mukhulai, his wife Bayambazolboo and their baby son Ami-monkh. He is full time pastor and director of the Hope Center. God has used him and his wife to minister to the hundreds of children that pass through our center. They love the Lord and love to be mentors to the boys and girls that live in and around the landfill. Please remember them in prayer. Raising a family in this rough part of the city and overseeing the daily operations of the Hope Center is a difficult task.

Pictured at right is Azzaya and her baby son. Azzaya lost her parents at a young age and lived in the landfill. She came into our feeding center for the good food and after a short time prayed to receive Christ. She attended our center and church for many years and met her husband. She is now happily married raising a family.

Pictured above on the left and right are a few of the young children that attend the Hope Church and Feeding Center. Because of your giving and prayer, they can eat a good meal everyday and learn about Jesus. Thank you for helping us reach these children and their parents with the hope of Christ.
